

Open Ended Comments: Please specify "Other" arguments *in support* of the public safety assessment:

Act 33 of 1951

All are good reasons.

Do not want additonal police service

Frightened for no ambulance service

I do not support the public safety assessment

I do not want to pay the assessment

If it will increase my current ISO rating of 9 - I would be all for it!!!!

Insurance increases

My Tyrone Township Property Has nothing to steal nor nothing to burn.

No good reason to support assessment.

No such argument exists

None

Or all of the above

Public safety should come from general fund and not require a special assessment

The tax itself is unfair. It should be based on the taxable value of the property
