

SAMPLE SITE PLAN

Provide drawing to scale (1 inch = x ft.) indicating the following information:

- Dimensions of lot - if lot is irregular, indicate dimensions of all property lines
- Dimensions and location of any proposed construction
- Dimensions and location of all existing buildings and easements on property
- Setback distances from all property lines (front, rear, both sides)
- Show any well, septic tank & drainage field including distances from building(s)
- Show names and locations of all roads, lakes, streams that abut property
- Show north compass arrow
- Show pertinent natural features; i.e., wetlands, trees, severe contour lines

- Existing Principal Structures
- Proposed Principal Structures Subject to Sight Line Regulations

Lake lots also need to provide the above Sight Line site plan to show homes on adjacent lots or within 300'.
